

Emergency Procedures

TOW or RECOVERY

If you require a tow or other assistance from the worksite staff at any time on this tip site, you as the truck driver, must:

1. Stay in your cab.
2. Request for assistance on UHF CH33.
3. Do not exit your cab unless you are in immediate danger by remaining in your cab.

Tipsite evacuation

In the event of a Tipsite evacuation you will hear a **continuous alarm** and **"EMERGENCY, EMERGENCY, EMERGENCY"** stated on UHF CH 33. You, as the truck driver, must:

1. Stay in your truck, park safely out of the way.
2. Signal to a nearby operator who will give you a ride in a work ute down to the assembly point.
3. Follow all instructions given by Dirtworks' staff.

Tipsite Information Booklet

It is a requirement that you read and understand the Hazard Board (located at the front of the weighbridge) for the relevant **risks** and **controls** for this Tipsite.

TIPPING PROCEDURE

Please indicate to the WB staff if you are new to the tipsite

1	The tipsite staff will indicate to you which tip you are to tip your load at.
2	Wait your turn in the queue.
3	Tip block must be manned before you reverse.
4	Engage communication with the operator. Use UHF Ch33 if you have it.
5	Only when the operator indicates it is safe to do so – reverse onto the tip block.
6	Remain in communication with the operator at all times, they will indicate when you are in the right position to tip (listen for one horn toot)
7	Raise your hoist and tip your load into the hole.
8	Operator will indicate when you are empty (listen for two horn toots). Lower your hoist.
9	Pull forward from the tip block.
10	Clean trips in the designated area.

DO

- ✓ WATCH AND LISTEN to the spotter / operator for instructions at all times.
- ✓ Always have your hand on the hoist lever while tipping.
- ✓ Watch your trailer as it tips. STOP if it's unsafe.
- ✓ Abide by any instructions given by the tip operator.

DO NOT

- × DO NOT Leave your cab while tipping.
- × DO NOT take your eyes off the spotter/operator.
- × DO NOT talk on your phone or be distracted in any other way.
- × DO NOT tip if you feel unsafe or are on uneven ground.

Please check material Type with operator on every load.
